

GAAP News

New Features

Our programming team is constantly expanding along with our product. We at GAAP see great value in constantly developing our software offering to keep ahead of our competitors. The technology that GAAP offers currently is second to none in the industry and there are even more really exciting developments in the pipeline. Watch this space!!!

Some new features recently added include:

The Waitron Tracking Program, previously only accessible from the back office, can now be attached to waitron cash up's. This allows owners and managers to easily keep track of which waiters are pushing certain items. These may include high GP menu items, vulnerable theft items or promotional offerings.

The Ordering (GRV) Module is constantly being added to and has now become an extremely effective business tool in its own right. Managing shrinkage by performing stock takes used to be the key function of any Back Office Software. This module adds to your stock management by minimizing losses through over-ordering and perishables being thrown away. The ordering module, once set-up, can accurately predict orders by either making calculations from past consumption or user-entered par levels.

For information on any new feature in our newsletters, please feel free to contact our call centre on 086 100 4227 to find out more.

As always, there is **unlimited free training** available to all our valued clients. Contact your nearest GAAP office now and make sure you are using our software to its full potential, and in doing so, managing your business to its full potential!

Customer News

Roma Revolving runs GAAP

GAAP now caters for the POS needs at the landmark Durban restaurant, the Roma Revolving. Situated on the 32nd floor of John Ross House, with spectacular CBD and harbor views, this is the only revolving restaurant in South Africa, and one of only 36 worldwide.

Roma has been operating since 1973, specializes in Italian cuisine, and has some exciting expansion plans in the pipeline. It is a must for any visitors' to Durban, and has a very large and loyal local clientele.

We welcome the owners and management to the GAAP family, and look forward to the upcoming developments.

Livingston's Gastro Pub

Livingston's is the latest offering from the FranSmart Group, the same group that conceived legends like Billy the b.u.m's, Butcher Boys and Franki Bananaz.

Their latest offering, Livingston's, targets the growing gastro pub market. Offering a wide range of draught at the bar and emphasizing quality gastro pub fare in the restaurant, they have been packed since opening their doors earlier this month so be sure to check them out. Livingston's is located in Glenore Centre, Glenashley.

National Call Centre (086 100 4227)

Please be sure to log a call with our national call centre for all your technical support. This is the quickest and most effective way to get any POS problem resolved at your site.

Until next time.....
